Definitions

The following terms are utilized in this chapter and are defined as follows:

By report: A code listed in the fee schedule as “By Report” which doesn’t have an established fee because the service is too unusual, variable, or new. When billing for the code, the provider must provide a report that defines or describes the services or procedures. The insurer will determine an appropriate fee based on the report.

Link: For the legal definition of By Report, see [WAC 296-20-01002](#).

Residence (home) modification: A residence or home modification is a permanent change to an existing residence or a repair of a modification previously approved and paid for by the department or self-insured employer, or a modification made when constructing a new residence.
